Ojodu, Lagos

Summary

I am an innovative and task driven developer with more than 2 years of experience in web design and web development. I am very proficient in the use of JavaScript, **HTML, CSS and ReactJS** library to create functional, responsive and aesthetically pleasing websites.

I have in-depth and practical knowledge of **continuous testing, troubleshooting and integration of UI/UX, APIs, performance checking and documentation.**

Outside work, I indulge in sports and enjoy reading framework documentations.

Experience

React Developer

BELLSTECH LAB & NCS • Ota, Ogun   09/2022 - 11/2022

- Worked with a team to build a smart irrigation system web application using REACT JS and Blink API to function hand in hand with an Adruino based irrigation system.
- Improved page routing speed using react-router 6.
- Worked with a UI/UX designer to build beautiful and responsive components.

REACT JS

Front End Developer

Freelance • Lagos, Nigeria   01/2022 - 02/2022

- I built beautiful and responsive portfolio websites for my school mates which gained them grade qualifications for school web applications (projects).
